

Accessibility Policy and Plan (2016-2019)

Rationale

At Brompton-on-Swale Primary School we believe that children learn best in a friendly, happy and caring Christian community. We aim to encourage independent learning through swift acquisition of core learning skills, investigation and first-hand experience. In this way we enable our children to develop and acquire a wide range of skills in all areas of the curriculum. The needs and abilities of each individual child are our first concern and to this end we believe that education is a partnership between the school, the children and their parents.

Aims and Purpose

This Accessibility Plan has been drawn up to cover the period from Autumn 2016 until Summer 2019. The plan is available in large print and can be made accessible in other formats, if required.

The plan takes account of the school's public sector equality duty set out in section 149 of the Equality Act 2010, Disability and Discrimination Act 1995 as amended by the SEN and Disability Act 2001. Disability is defined by the Disability Discrimination Act 1995 (DDA): "A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities."

Brompton-on-Swale CE Primary School is committed to providing an environment which values and includes all pupils, staff, parents and visitors regardless of their educational, physical, sensory, social, spiritual, emotional and cultural needs.

We are further committed to challenging attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion. The purpose of this plan shows how Brompton-on-Swale CE Primary School intends, over time, to increase the accessibility of our school for disabled pupils, staff, parents/carers and visitors.

Our key aim is to reduce and eliminate barriers to access to the curriculum and to full participation in the school community for pupils and prospective pupils with a disability.

To this end, the school will:

- Comply with the DDA through provision of policies covering SEND and Inclusion, Safeguarding and Child Protection
- Ensure disabled pupils are not discriminated against in terms of Admissions and Exclusions (as confirmed by these policies)
- Recognise and value parents' knowledge of their child's disability and its effect on their ability to carry out normal activities
- Provide all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils, endorsing the key principles in the National Curriculum and EYFS Framework
- Set suitable learning challenges and targets, responding to pupils' diverse learning needs, to overcome potential barriers to learning and assessment for individuals and groups of pupils
- Seek and follow the advice of LA services, such as specialist teacher advisers, SEN professionals and health professionals

- Provide teachers and teaching assistants with the necessary training to teach and support disabled pupils (e.g. improving awareness that disabled pupils may tire more quickly than their able peers due to physical/mental effort expended in order to keep up; improve understanding that disabled pupils may not be able to engage in particular activities/may need significant adjustments, for example some forms of exercise in physical education)
- Ensure classrooms are organised for disabled pupils and ensure that lessons provide opportunities for all pupils to achieve and are responsive to pupil diversity
- Provide access to technology/equipment appropriate for pupils with disabilities
- Make school visits accessible to all pupils irrespective of attainment or impairment, removing all barriers to learning and participation

Role of Headteacher and Governing Body

The role of the Headteacher and Governing Body is to ensure that the Physical Environment of the school is compliant with DDA. Furthermore, the Headteacher and Governing Body should ensure that all school information is provided in accordance with DDA. As such, the school will:

- Take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking improvements and refurbishments of the site and premises (such as improved access, lighting, acoustic treatment and colour schemes and more accessible facilities and fittings)
- Ensure access for all pupils in the following areas: academic, sporting, play, social facilities, classrooms (including external classrooms), the hall, the library and playgrounds
- Support any pupils who use wheelchairs to move around the school without experiencing barriers to access such as those caused by doorways, steps and stairs and toilet facilities
- Ensure pathways of travel around the school site and parking arrangements are safe, routes are logical and well-signed and that emergency and evacuation systems are set up to inform ALL pupils, including pupils with SEN and disabilities
- Ensure visual signing is clear to all pupils with disabilities, that all areas are well lit, and that furniture and equipment is selected, adjusted and located appropriately
- (With support from the LA) provide information in alternative formats when required or requested (including information in a simple language, symbols, large print, on audiotape or in Braille for pupils and prospective pupils who may have difficulty with standard forms of printed information)
- Ensure that staff members are familiar with technology and practices developed to assist people with disabilities
- Ensure that, where it is practicable to make reasonable adjustments to enable a prospective pupil to take up a place at the school and to satisfy the current admissions criteria, the school will provide reasonable adjustments

Role of Parents

In order to meet the needs of disabled pupils, the school requires full information. The school will ask the families of prospective pupils to disclose whether they have received any learning support, have had an Educational Psychologist's report or have any disability or other condition of which the school should be aware. Where a pupil has an Education and Health Care Plan, the school will work with the Local Authority (LA) who makes and maintains the plan to ensure that the identified provision is delivered in an appropriate manner. In assessing the pupil or prospective pupil, the school may need to take advice and require assessments as appropriate. The school will be sensitive to any issues of confidentiality.
