

Subtraction

Skill: Subtract 1 and 2-digit numbers to 20

Year: 1/2

$$14 - 6 = 8$$

$$14 - 6 = 8$$

A number bond diagram for 14 - 6 = 8. The number 14 is circled. Lines connect it to 4 and 2. The number 6 is written below the 4.

$$14 - 6 = 8$$

A number bond diagram for 14 - 6 = 8. The number 14 is circled. Lines connect it to 4 and 2. The number 6 is written below the 4.

In Year 1, subtracting one-digit numbers that cross 10, is done by counting back, using objects, number tracks and number lines. From Year 2, children should be encouraged to find the number bond to 10 when partitioning the subtracted number. Ten frames, number shapes and number lines are particularly useful for this.

Skill: Subtract 1 and 2-digit numbers to 100

Year: 2/3

$$65 - 28 = 37$$

$$\begin{array}{r} 5 \ 1 \\ 65 \\ - 28 \\ \hline 37 \end{array}$$

Children can also use a blank number line to count back to find the difference. Encourage them to jump to multiples of 10 to become more efficient. From Year 3, encourage children to use the formal column method when calculating alongside straws, base 10 or place value counters. As numbers become larger, straws become less efficient.
